My mouth is empty
There's nothing left to say
Was it that easy
To let me fade away
Yah, love is blind
But who needs eyes to taste (eyes to taste)
He's got these anger eyes
On a devil's face
A tortured soul
Dressed up in lace
If loves a crime
She's got some time to face (got some time to face)

Well, I've been trying to get this off my chest
While hanging on to the moments we have left

I'll keep my tongue between my teeth
And bottle these words inside of me
I know it's nothing new
Yeah, I know we're through
But I'm still a fool for you

This head is heavy
I feel the flames within
But strong, and steady
I'll smile to pretend
Yah, fate exists
With balled up fists towards me (With balled up fists
towards me)
I've got these beggar palms

Hid in golden gloves
I'm on my knees
Decayed by love
If change is good
I'd like to meet someone that could (someone that
could)

Well, I've been dying to taste this bitter end
While trying hard just to wash you off my skin

I'll keep my tongue between my teeth
And bottle these words inside of me
I know it's nothing new
Yeah, I know we're through
But I'm still a fool for you

I'll keep my tongue between my teeth
And bottle these words inside of me
I know it's nothing new
Yeah, I know we're through
But I'm still a fool for you

I'll keep my tongue between my teeth (teeth)
And bottle these words inside of me
I know it's nothing new
Yeah, I knew we're through
But I'm still a fool for you
