No regrets  
Although our love affair has gone astray  
No regrets  
I know I'll always care though you're away  
So now our happy romance ended suddenly  
Still in my heart you'll be forever mine  
No regrets  
Because somebody new looks good to you  
No regrets  
Sweetheart no matter what you say or do  
I know our love will linger  
When the other love forgets  
So I say goodbye with no regrets  
No regrets  
Because somebody new looks good to you  
No regrets  
Sweetheart no matter what you say or do  
I know our love will linger  
When the other love forgets  
So I say goodbye with no regrets
