Did you say I got a lot to learn
Well, don't think I'm trying not to learn
Since this is the perfect spot to learn
Teach me tonight

Starting with the ABC of it
Right down to the XYZ of it
Help me solve the mystery of it
Teach me to mars

The sky is black hole
High above you
If a shooting star goes by
We'll take that star
And write 'I Love You'
A thousand times across the sky

One thing isn't very clear, my love
Should the teacher stand so near me, my love
Graduation is almost here, my love
Teach me tonight

The sky is black hole
High above you
If a shooting star goes by
We'll take that star
And write 'I Love You'
A thousand times across the sky

One thing isn't very clear, my love
Should the teacher stand so near to me, my love
Graduation is almost here, my love
Teach me tonight

Teach me to mars
And teach to me tonight
