Verse 1:

Oh, something inside of me knows
I need to leave u alone...
I might need to breathe on my own

Prehook:

I need to let this go
I need to let u go
But you've got such a hold on me
That done grown on me
Need control of me

Hook

(But how)
How can I clear my mind, when my only mind falls to
you
(But how)
How do I clear my plans, when the only plan, I know is
you
I need that dose that u bring, that fix when I breathe...
one you
Everybody like go girl, let go, but don't nobody hold
The antidote

Verse 2

Oh, something inside of me knows
I need to leave this alone
With all the damage it's done to my health
Done to my health...

Prehook:

I need to let this go
I need to let u go
But you've got such a hold on me
That done grown on me
Need control of me

Hook

(But how)
How can I clear my mind, when my only mind falls to
you

(But how)
How do I clear my plans, when the only plan, I know is
you
I need that dose that u bring, that fix when I breathe...
one you
Everybody like go girl, let go, but don't nobody hold
The antidote

Bridge:
The make it right
The solution
The lonely nights
The pollution
The crave
And the fight
And the want
The need of you

Hook
(But how)
How can I clear my mind, when my only mind falls to
you
(But how)
How do I clear my plans, when the only plan, I know is
you
I need that dose that u bring, that fix when I breathe...
one you
Everybody like go girl, let go, but don't nobody hold

Antidote (4x)
