Oh you make me lay down

Oh you make me forget I am here

Oh you're making me safe now

Oh you make the faces diappear

CHORUS

Send it up

Send it up now

Send it up

Send it up

Send it up now

Send it up

Oh I feel so close now

Oh you're taking me back from where I've been

Oh I'm not alone now

Oh you rest me up and rush me in

I'm all right by the way

Everyone saves the day

Sometimes I feel it

CHORUS
