"I Can Do Without You"

Visit "[I Can Do Without You](#)" on MotoLyrics.com

I can't really see if you did it to me
I don't really know if I want you for sure
I can't really see if it's bothering me
I don't really know and that bothers me more

You can love me if you dare
You can say say how much you care but

I can do without you
I don't need your kind of pain
I can do without you
I don't even know your name

I wish you would leave
I don't need you at all
I hope you believe
And I mean it for sure
You should stay away
Ain't no further to fall
I'll be so relieved
When I see you no more

You can love me if you dare
You can say say how much you care but

I can do without you
I don't need your kind of pain
I can do without you
I don't even know your name
