"Make It Last"

Visit "[Make It Last](#)" on MotoLyrics.com

Make it last
Got to make it last
A long time

Make it last
Makin' love shouldn't go too fast
It's the best when you make it last
Especially when I'm with you
I know the way to

Make it last
Got to make it last
A long time

In the past
I used to think of love as come and go
Til I learned how to take it slow
Since I've been with you I know
I know the way to

Make it last
Got to make it last
A long time
(make it last Joey)

In the past
I used to think of love as come and go
Til I learned how to take it slow
Since I've been with you I know
I know the way to

Make it last
Got to make it last
A long time
