"Something Better"

Visit "[Something Better](#)" on MotoLyrics.com

If things look green on the other side
You might end up going in the wrong direction.
Like the story of the dog who jumped in the pond
Hypnotized by his own reflection.
Well you're dogging me around about something that I
said
Hounding me about the things I used to do.

Crying out loud about the way I make you feel,
Feeling like I never do enough for you.

If you think you can find something better, Oh Yea
If you think you can find something better
You don't realize baby what you've got
We're going to lose everything we had together.

If you think you can find something better, Oh Yea
If you think the grass on the other side is greener
You don't realize baby what you've got and
we'll lose everything, everything we have together.

You're going to end up with nothing, Oh Yea,
You don't realize baby what you've got
You're going to end up with nothing,
We're going to lose everything we've got together.
