If you want some love  
Take her by the hand  
Hold her so she's close enough  
To make her understand your plan  
Give the world to make love

He who hesitates  
Loses in the end  
If you make her wait  
You're gonna end up just her friend my friend  
Give the world to make love

What in the world are you waiting for  
What in the world do you say  
Love makes the world go around for sure  
Make a world of love today yeah yeah

Touch her on the neck  
Touch her on the ear  
Touch her all over til  
You drive her into sheer ecstasy  
Give the world to make love

Refrain
