Westward course of empire has got  
its wheels turning faster and on to disaster  
so long, long, such a long way to go.

Riding up on a high horse looking at  
all the soldiers and the holy rollers  
so long, long, such a long way to go.

It didn't take that long.

I could be reasonable, I could fight,  
I could have at least been a little bit wiser  
so long, long, such a long way go.

You know when those miniature birds  
sing an ignorant song the choir's  
putting us on tiral  
so long, long, such a long way to go.

Riding up on high.

It didn't take that long
