So if I walk outside my house then I will float away,  
I will fly away, the world will set me free,  
A decorated captain breathing dreams within my sea,  
You have my word I'll float away the world will set  
me free.

Oh so, the wind may blow,  
But I will find my way back you know,  
Oh oh, the time will show  
That I don't want your weight no more,

Don't get in the way  
The lights won't break, I made them stay  
Don't get in the way  
Keep moving on and on and on  
The mirror I smashed has made  
Ten years bad luck, so what, so what  
I cashed my check today,  
and it's all burnt up now what?

Oh, oh the wind may go,  
But I will find my way back I know,  
Oh, oh, the time will show,  
That I don't want your weight no more

Don't get in the way  
The lights won't break, I made them stay  
Don't get in the way  
Keep moving on and on and on  
The mirror I smashed has made  
Ten years bad luck, so what, so what  
I cashed my check today,  
and it's all burnt up now what?
