It's an almost sinking uninhabited island  
it's not on the globe and it doesn't  
even have a name  
Although a ship of hope sailed near  
us yesterday  
It wasn't here to pick us up

We help up  
Although we held up the prism  
which gazed in  
rapture upon the sun and burned

Can you feel?  
Can you feel that hybrid rainbow?  
Although we didn't get selected  
until yesterday  
We are waiting for tomorrow

Our almost defalted airship  
is floating near ground

The form of the color that we are  
confused to call  
It'll probably be picked up by the birds  
without hesitation

Can you feel?  
Can you feel that hybrid rainbow?

It is definately not here yet  
The limit of endurance is not here  
It is not here

Can you feel?  
Can you feel that hybrid rainbow?  
We want to believe it is only half-way here  
I can feel  
I can feel that hybrid rainbow  
Although we didn't get selected  
until yesterday  
We are waiting for tomorrow
