Gettin a lil hot in here, gettin a lil hot in here

Radiation of your love is gettin me  
It's burnin me up, I can barely see  
Luvn you's like breathin, Can I stop?  
The answer...I think not  
I don't wanna spend my time dreamin of you  
I can't help it though, what can I do?  
Let's get out baby, have a lil fun  
Don't think about it I'm the one

Chorus:

Cuz you can't fight Fire with ice  
I'm your girl so you better be nice  
You can't fight ice, with coal  
Your deep inside my soul  
Don't you dare call me a liar!  
Cuz you gotta fight fire...with fire

(Fire with fire, ice with ice I'm your girl, you better be nice)

I know you know you want me  
Hiding it's not easy  
So let it out, don't be afraid  
All these emotions, can't be saved  
Why don't you admit?  
Until you do boy I won't quit?  
Just tell me what you feel  
And we'll start something thats so real

Chorus

whisper Chorus

Fight Fire with Fire
