N. Finn/T. Finn)

All I ask is to live each moment

Free from the last

Take the road forgotten

Don't leave me here

Oh please let me stay

Far from familiar things

All I ask is to live each moment

All I ask is to live each moment

Free from the last

Strange roads going nowhere in particular

All I ask is to live each moment

All I ask is to live each moment

Free from the last

Free from the last

All I ask
