Black and white boy

Black and white boy

You're so extreme

You're so confused

Color me in whatever mood I'm in

I could be still in touch with you

And you're full of the wonder of spring

It's all sweetness and lightness you bring

And a room full of people fall to your infinite charm

But when darkness should quickly descend

You go quietly, my miserable friend

To the depths of despair you will crawl

Black and white boy

Black and white boy

Black and white boy

You're so extreme

You're so confused

Color me in

Whatever mood I'm in

I could be still

In touch with you

When you shake off the shadows of night
And your eyes are so clear and so bright
You'll make fools of the liars and creeps
Put a rose in my cheeks
But when demons have climbed on your back
You are vicious and quick to attack
And you put on a wonderful show
Do you really, really think I don't know?
Black and white boy
And you run like a cat to the cream
And you're acting so nice it's obscene
You put on a wonderful show
Do you really, really think I don't know?
Black and white boy
