Don't stand around like friends at a funeral

Eyes to the ground

It could've been you

Why do you weep for the passing of ages

You slip with the back of your hand

You're taking it out on the one you love

I couldn't believe it

Chorus

But we might still survive

And rise up through the maze

If you could change your life

And never be the same

How long must I wait

For you to release me

I pay for each mistake

While you suffer in silence

I could still have an easy life

But the lie ain't worth the living

Once more will I hear you say

chorus 2

That we might still survive

And rise up through the maze

If you could change your life

And never be the same

Don't stand around

Like friends at a funeral

Eyes to the ground

Don't suffer in silence

'Cause we might still survive

And rise up through the maze

If you could change your life

And never be the same

And every time I hear you

Never be the same

And every time I mess up

Never be the same
