I know your natural circuitry is so exciting
Your mother board has got my cords wired all up,
all distored
You can download my feed at the speed of lightning
I promise you won't get no static
My system is automatic, girl
Been searching far and wide (Uh huh)
Looking for the right prototype (Uh huh)
Gonna program your device
Upload the design from my key drive
Let's get, get, get it right
Your system's online and on time
On time

Chorus

Your body, baby, it's on time
It's automatically on time
You drive me crazy, you're on time
Got no static, no, on time Your body, baby, it's on time
It's automatically on time
You drive me crazy, you're on time
Once you're plugged again, I gotcha

Once you're plugged again Your random access
memory is minimizing
Your clipboard is overstored
but my internet will explore it
Get control-alt-delete bugs that are hiding
I promise you won't get no static
My system is automatic, girl
Been searching far and wide (Uh huh)
looking for the right prototype (Uh huh)
Gonna program your device
upload the design from my key drive
Let's get, get, get it right
Your system's online and on time On time **Chorus** Got
your body, baby, it's on time!
Uh huh **Chorus** Once you're plugged again, I gotcha
Once you're plugged again, I gotcha
Once you're plugged again
