"Good Man"

Babe we both had dry spells Hard times in bad lands I?
m a good man for ya I?m a good man

Last night there was a horse in the road I was twisting
in the hairpin My hands held on my mind let go And
back to you my heart went skipping I found the inside
of the road Thought about the first time that I met you
All those glances that we stole Sometimes if you want
them then you?ve got to

Babe we both had dry spells Hard times in bad lands I?
m a good man for ya I?m a good man

They shot a Western south of here They had him
cornered in a canyon And even his horse had
disappeared They said it got run down by a bad bad
man You?re not a good shot but I?m worse And there?s
so much where we ain?t been yet So swing up on this
little horse The only thing we?ll hit is sunset

Babe we both had dry spells Hard times in bad lands I?
m a good man for ya I?m a good man
