"Eight Sides"

Aim changing my life im bleeding all the time
This night may be my final night
Destructive but kind
Contagious yet blind
Looking at you i don't really see much love

My mother wasn't kind we didn't see eye to eye
Its all academic now; she shit me out
Twisting like time. my brain has different sides
Push me wrong i'll push you off the track

Eight sides
Eight sides

Im focusing i find. im drinfting in and out of time
A kiss from me. you can kiss your life goodbye

There's nothing wrong with my head

[chorus]
