Let me have you

Only you can take away this pain

Let me hold you

Let me disappear inside your arms

Let me have you

Only you can take away this pain

Here alone

I sit and wait

For your call

Can ya get away

Just for a little while, hey

What will it take?

To show you

To persuade you

You're the only one

You're the only one

Let me hold you

Let me hold you

Let me disappear inside your arms

Let me have you

Let me have you

Only you can take away this pain

My pain

Let me hold you

Let me disappear inside your arms

Let me have you

Let me have you

'cause only you can take away this pain

Can't you understand that I

Can't you understand that I

I can't get over you, baby

'cause my heart breaks for you

What will it take?

What will I say?

Yes

You're the only one

Let me have you

Let me have you

Please

Let me

Let me have you

Feels so good

Baby, baby

Baby baby

Feels so good

Take away this pain.
