Ohhâ€¦ Yeah. Uh, uh.

It's time to leave behind, all the filthy lives
On the life goin' blind
We can make it right, if we look for love
On the orphan skies

One more place, to hide away
From everything behave and alive
We run through the streets
The people we meet
Open doors to a world
We scare to explore

So tie your laces, there's a race we have to win
Try to believe in, it ain't easy
Don't be thereâ€¦

It's time to leave behind, all the filthy lives
On the life goin' blind
We can make it right, if we look for love
On the orphan skies

A bird in a breeze, and the sign in the trees
These are the things I can see in my dreams
I won't let us down, we can turn this around
'Cause you're helping me up and I know we can't lose

It's time to leave behind, all the filthy lives
On the life goin' blind
We can make it right, if we look for love
In the stranger's eyes

No more cryin' eyes, starin' side by side
On the orphan skies
We can make it right, if we look for love
In the stranger's eyes

We need something, in the days to make us smile
We'll keep our drifts to through our lives
Spendin' time awake and lonely in the night

You don't feel homesick
When you never had a home
I have to trust from my heart
And though I'm fast to do the best for us

It's time to leave behind, all the filthy lives
On the life goin' blind
We can make it right, if we look for love
In the stranger's eyes

No more cryin' eyes, starin' side by side
On the orphan skies
We can make it right, if we look for love
In the stranger's eyes

It's time to leave behind, all the filthy lives
On the life goin' blind
We can make it right, if we look for love
In the stranger's eyes

No more cryin' eyes, starin' side by side
On the orphan skies
We can make it right, if we look for love
In the stranger's eyes
