"Let'S Leave"

We should be out of reach all the time
Come here darling, show me we rhyme
Come hold my hand, yes I'm blind
I need every moment with you, safe

Let's leave

Now I couldn't care what to say or do around here
Let's be alone, they're making noise in my ear
And sweetheart tell me you need it too sincere, tell me

Let's leave

I couldn't make anything bigger than you
Look in my eyes - you know it's true
My weakness dependence I'm yours it's plain
Get up and show me it's not in vain

Let's leave

We'll be alone
We'll be home
Let's leave
