I won't be seeing her no more
Silently standing by the door
Passing me by, I smelled her hair
Getting that feeling when you're near
I'm leading, I am leading

What do you know
Where do you hide
All of their loved ones, all of them died
What have I done I'm craving for more
Now that I've escaped
I've done it before

Oh, I've realized what I did that day
Oh, I've realized, have mercy on my soul
Holding back on me, doesn't matter now
You know, you know
I hid the red child
It's not what I had in mind

I'm leading
Keep on licking scars
Keep moving

I'm waiting, craving more
I've done it
