"Remember the Day"

Visit "[Remember the Day](#)" on MotoLyrics.com

She's walking alone, walking by the river
Amazing how it moves, waves, they are dancing
She used to dance, she used to dance with him

Remember the day the music box stopped playing
What would she have done if his body floated up?
She used to float, she used to float with him
She used to eat, used to sleep with him, with him

She's walking alone, walking by the river
Amazing how it moves, the gun to her forehead
She used to move, she used to move him
She used to be, she used to be
