I  
I give  
I give you  
I give you love  
Give you loving all the time  
Give you kisses just like wine  
Do her kisses taste like mine  
No! no! no!

I'll make you happy just like your daddy said  
I'll make you happy just like your mamma said  
I'll make you happy just like your daddy said to me

If  
If you  
If you don't  
If you don't want  
If you don't want to be my man  
Pass the bottles and the empty cans  
I just want to hold your hand  
Just me! me! me!

I'll make you happy just like your daddy said  
I'll make you happy just like your mamma said  
I'll make you happy just like your daddy said to me

I'll make you happy just like your daddy said  
I'll make you happy just like your mamma said  
I'll make you happy just like your daddy said to me...
