I don't know how I got to this place
Chasing memories I got through the face
On the land like a river of sand
Every time I believed what I heard
Paparazzi's, they fade like the words of a song
Now I know I was wrong
So river of sand will you carry me home
'Cause I don't understand how to make it alone?
Where the water runs free for the sunlight to dance
Just wanna come back on a river of sand
What's so bad about rain on your town?
All the dew on the ground when the sunrise began
Let it come 'round again
I got nothing but time here to kill
No big glance, no true love
Just the 'Will I be thrilled?'
So would you wash me away?
So river of sand will you carry me home?
'Cause I don't understand how to make it alone
Where the water runs free for the sunlight to dance
Just wanna come back on a river of sand
I don't know what to say so I won't ask
Know the right words to pray my way back
So river of sand will you carry me home?
'Cause I don't understand how to make it alone
Where the water runs free for the sunlight to dance
Just wanna come back on a river of sand
