

## Greencards, The "Who Knows"

Visit "[Who Knows](#)" on MotoLyrics.com

A million miles from where I started  
Paths I've traveled along the way  
The winds have shared my journey  
And carry dreams that I'd chase  
I reach up from way down under  
'Neath the fear I have inside  
Chances are by taking chances  
So hold the dice and let it glide  
Who knows, who knows  
Who knows what tomorrow holds  
Melodies of love surround me  
Beyond the ways I've come to know  
In harmony we'll find the answer  
To what lies at the end of it all  
Who knows, who knows  
Who knows what tomorrow holds  
Who knows, who knows  
Who knows what tomorrow holds  
Who knows, who knows  
Who knows what tomorrow holds
