"At Night"

Things I do at night
(?) Out of sight
The city sleeps
A lovely silhouette
Sits on her bed
I'll have a peek
And when there's no-one around
I sneak through the grass without a sound
A moment of you life
Is now mine
And mine to keep
I hang my head in shame
As I walk these empty streets
And when there's no-one around
I sneak through the grass without a sound
And when there's no-one around
I sneak through the grass without a sound
Things I do at night
(?) Out of sight
The city sleeps
A lovely silhouette
Sits on her bed
I'll have a peek
