i climb to the roof to see
if i could sit it
the atmosphere laughed at me
i lied and said i could win
a mission unfolded me
???? virgin to sea
condition remotod me
lies seep from my grasp

i couldn't float from mouth to mouth
i hate the language
gravity moves some people out
there's too much damage

i fell from the roof at speeds
i've never acheived
the ground had it's eye on me
just feet from ???

i couldn't float from mouth to mouth
i hate the language
gravity moves some people out
there's too much damage
