I admit it, I'm the one that quit it
You'd never do it, even though you blew it
Deep down you knew it but you hid it
I guess I just beat you to it

And we be kissin'
And I be thinkin' about what was missin'
We didn't fight
We just passed like ships in the night

I'm all done with you now
I'm all done with you now

You wanted me to hold your hand
But you were gone so you can hold your own
Now your living out the life we planed
With some Hippie girl you know

I couldn't wait
I wanted you, but you wanted to hibernate
I couldn't stand it
So I made out like a bandit

I'm all done with you now
I'm all done with you now
I'm all done with you now

I should've known, I should've known
You want me but you need me to go

Shouldn't have gotten so comfortable
Made it so much harder when I had to go
It's okay because now I know
That you can't hold mine, if you can't hold your own

I can't believe, I had to leave
And take my heart off my sleeve

I'm all done with you now
I'm all done with you now
I'm all done with you now
I'm all done with you now

I'm all done with you now

I should've known, I should've known
You want me but you need me to go
