You got it Randi
You got it all tonight
You got it Randi
You got it all tonight
Falling over in the bedroom, in the bathroom, on the
floor
Keep it together, feel better, get some whiskey at the
store
You were born to play the part, fix your makeup in the
dark
You got it Randi
You got it all tonight
You got it Randi
You got it all tonight
Take a ticket from a stranger, you're a lucky little girl
Dirty pictures, imitations, you just gotta say the word
You were born to play the part, fix your makeup in the
dark
You got it Randi
You got it all tonight
You got it Randi
You got it all tonight
They got you Randi, just for the night
Livin' out your dream (dream),
Now you're part of the scene (scene)
Got your name in lights
But they never spell it right
Keep it together, feel better, get some whiskey at the
store
Falling over in the bathroom on the floor
You were born to play the part until the end
So go and fix your makeup again
You got it all tonight
You got it Randi
You got it all tonight
You got it Randi
You got it all tonight
They got you Randi, just for the night
(Repeat Chorus)
