I can't wait to lose it
I'm like a time bomb ready to go
I'm so tired and it's Saturday night
I'm looking for an easy show

'Cause there's a shake in the action
I want some shake for some action, baby
There's a shake in the action
There's a shake in the action, baby

They cut my brain out
And they took it away from me
I'm alright and it's Friday night
And I'm so messed up on weed

'Cause there's a shake in the action
I want some shake for some action, baby
There's a shake in the action
There's a shake in the action, baby

Shake in the action
Shake in the action

(Shake) I can't wait to lose it
(Shake) I'm like a time bomb ready to go
(Shake) I'm so tired and it's Saturday night
(Shake) I'm looking for an easy show

'Cause there's a shake in the action
I want some shake for some action, baby
There's a shake in the action
There's a shake in the action, baby
