I captured a rainbow, but just at the time when it
leaves,
It faded the sky, and I just don't know what it means,
It's so perfect combined, but it's just on one side,
And I've got to say it to you.
That you're looking behind for what you cannot find,
And I've got to say it to you, (but it's not the same)

You drive with no lights, then everything's blinded to
you,
If you look at the signs now, then it will say "give way"
to you.
So you stop in your tracks, but you can't find the map,
And I've got to say it to you,
That your luck has run out, and you're so full of doubt,
And I've got to say it to you.

That it's not the same when I look in your eyes,
And everything's down, oh my luck says goodbye,
And I can't believe how this started again,
But it's not the same, it's not the same,
Yeah when I look in your eyes... yeah...

Did I look too far, when you were just seeing today?
Did I give you something that maybe you'll want back
someday? Yeah
Well, it's just a matter of fact, how we learn to subtract,
And I've got to say it to you,
And will I be replaced by some beautiful face?
And I've got to say it to you...

And I can't believe that I'm somewhere that I've never
been,
And I'm watching you go, and it's the vein to my life,
that you
Just didn't fight, so I'm letting you go, and now this
really feelsâ€¦!
Not the same when I look in your eyes...
