"Smile"

Looking back I could have seen your smile
Your arms reached around me for a mile
Let's take it slow
But I already know you, I don't have to show you

Ooh you're so beautiful inside
Yeah you make me feel right

Seen your face yeah a 1000 times
Saw your eyes yeah it took a while
Come on let's go - you know it's so
I won't let go - it's all mapped out

Ooh you're so beautiful inside
Yeah you make me feel right

It's running round and round inside my head
Over and over again, better wait until morning
I'll be with you.
