"Somewhere After Midnight"

Visit "[Somewhere After Midnight](#)" on MotoLyrics.com

Somewhere after midnight got my foot flat to the ground,
Somewhere after midnight, and I can feel you, see you,
Need you going down, it's not long now baby.
Somewhere after midnight and we're driving 95.
Got your hand just on my leg, but moving all, moving all around,
Now it's not long now baby.

Cause I've got one thought in
My head, just what you'll do then, I've got to get you
Naked lying right down next to me, yeah!

Cause if this love is alive, I'm begging you stay,
And if only I can survive, until the light of day,
And if you can stay in my life, I'm begging you please,
Just take this fire inside, and let it burn on me,
Now it's not long now baby!

Somewhere after 2am, we're getting through the door,
Gotta get your hands on me, so I can feel letting you explore,
Do this to me baby, cause I've got one hand on the light,
And I've gotta take it, take it off, cause baby's dragging
Me down to the floor, and as I'm down we're taking,
yeah
Kissing while we're shaking from the heat that we forecast!

Cause if this love is alive, I'm begging you stay,
And if only I can survive, until the light of day,
And if you can stay in my life, I'm begging you please,
Just take this fire inside, and let it burn on me,
Now it's not long now baby!
