Baby, baby, don't let this be, one more night with
My hand's covering me.
Tell me something, what does it take? You see through
Me clear as if glass, and I am willing to break,
But I'm begging you please, maybe just stay by my
side,
I know I seem right, when I'm wrong
But baby forgive me tonight...

And I say... stay with me, stay with me, stay with me,
Stay... cause this might be all I can show, and all
You are willing to take, and you say just
Run with me, run with me, run with me, run...
And I may fall short at the start,
But I am willing to learn, from you...

Take me somewhere, take me with you. Let your
Body be whole, let me see what you do...
Just cover my eyes, and capture my soul, let your
Hands ride in mine, let me feel what you know.
And I'm starting to fall, are you ready to catch me
This time? And I am breathing for you, and your
Breathing for me, the same time...

And I say... stay with me, stay with me, stay with me,
Stay... cause this might be all I can show, and all
You are willing to take, but you say just...
Run with me, run with me, run with me, run, as my
Body goes weak in your hands, now I am willing
To let go with you, and as my body goes
Weak in your hands now I am willing to let go with you.
