Playin' easy somewhere, shade across my mind  
Thoughts that pass I cannot catch, I reach for you and  
find  
That I have learned how, not to get burned now  
Wind in the tree blows, even the sea knows  
That I have learned how, think I can see now  
Lookin' through dreams is not what it seems

They handed me the bottle and said drink it till it's  
gone  
But now that it's half empty, I'm not sure I can go on  
Thought I had learned how, not to get burned now  
Wind in the tree blows, even the sea knows  
That I have learned how, think I can see now  
Lookin' through dreams

I keep rollin', I keep rollin', I keep rollin' and I can't stop  
Rollin' and I can't stop, it's drivin' me out of my mind  
To the truck stop, to the plane hop, yo the boat dock  
and I'm so close  
Boat dock and I'm so close, give me a little more time

Spin me around, turn my head down  
Take me down slow, don't let me go  
Spin me around, turn my head down  
Take me down slow, don't let me go

Gonna quit you, gonna quit you, gonna quit you, pretty  
mama  
Quit you, hey mama, you know that I ain't got time  
Get behind me, get behind me, get behind me, now  
bad times  
Oh, bad times, there's nothin' in there you can hide

Spin me around, turn my head down  
Take me down slow, don't let me go  
Spin me around, turn my head down  
Take me down slow, don't let
