Early in the mornin' when the sun come up
You'll find me sittin' at the table, drinkin' from a
wooden cup
The mortgage is a comin', tryin' to take my home away
I'm not gonna let it turn my head away

It won't be right, no matter what they say
It won't be right, tryin' to take my home away
It won't be right if they do this thing to me
I don't have to take it and I really don't wanna see

Later in the evenin', long about supper time
There's nothin' left here for me but a bottle of wine
I'm gonna be evicted along about the hour of five
Well, it's enough to make me wonder why I'm alive

It won't be right, no matter what they say
It won't be right, tryin' to take my home away
It won't be right if they do this thing to me
I don't have to take it and I really don't wanna see

It won't be right, no matter what they say
It won't be right, tryin' to take my home away
It won't be right if they do this thing to me
I don't have to take it and I really don't wanna see

And it won't be right, no matter what they say
It won't be right, tryin' to take my home away
It won't be right if they do this thing to me
I don't have to take it and I really don't wanna see
