Just because in a moment of madness
I took advantage of your sweet love
Don't just hand me a lifetime of sadness
When there's so little I'm guilty of
Give me baby

One chain don't make no prison
Two wrongs don't make no right
One rain don't make no river
One punch don't make no fight
It's what we said

Can you spare me a little affection
Would that be askin' too much of you
Don't point love in another direction
I swear I'll make it up to you
You you

One chain don't make no prison
Two wrongs don't make no right
One rain don't make no river
One punch don't make no fight

There's a bed I'm keepin' empty for you
There's a lot I know I've got to prove
Don't let a simple misunderstanding
Be a mountain that we can't move
Come on now baby

One chain
One chain
Two wrong
One chain

One rain
One chain
(Can you hear me)
One punch don't make no fight

One chain don't make no prison
Two wrongs don't make no right
One rain don't make no river

One punch don't make no fight

One chain don't make no prison
(One chain)

Two wrongs don't make no right
(One chain)

One rain don't make no river
(One chain)

One punch don't make no fight, baby

One chain don't make no prison
Two wrongs don't make no right
One rain don't make no river
One punch don't make no fight

One chain don't make no prison
Two wrongs don't make no right
One rain don't make no river
One punch don't make no fight

One chain don't make no prison
Two wrongs sure don't make no right
One rain don't make no river
One punch don't make no fight

One chain don't make no prison
Two wrongs don't make no right
