I'm seein red

Don't think you'll have to see my face again

don't have much time for sympathy

Cuz it never happened to me

Follow the leader down

And swallow your pride and drown

When theres no place left to go

And swallow your pride and drown
When there's no place left to go
Maybe that's when you will know
Follow the leader down
And swallow your pride and drown
When there's no place left to go
Maybe that's when you will know
Well I confess, I don't know what to make from all this
mess
Don't have much time for sympathy
But it never happened to me

come around
And now it's time to make a choice,
And all I wanna hear is your voice...
