Give me your reasons why,
I want to see you in a different light
You set me up and now you're breaking all the rules
You act like I'm a fool,
I learned a lot today
About the silly little games we play
Piece in the puzzle but it don't seem to provide any
reasons why

Oh, it's never quite enough now
Give me your reasons why you got no alibi
Oh, it's never quite enough now
Give me your reasons why you got no alibi
Woah, woah, woah

You got me feeling like I'm hypnotized,
With double vision seen through X-ray eyes
Keep pretending like it's fine please just tell me why

Oh, it's never quite enough now
Give me your reasons why you got no alibi
Oh, it's never quite enough now
Give me your reasons why you got no alibi
Woah, woah, woah

Oh, it's never quite enough now
Give me your reasons why you got no alibi
Oh, it's never quite enough now
Give me your reasons why you got no alibi
Woah, woah, woah

Give me your reasons why you got no alibi
Give me your reasons why you got no alibi
