It's okay  
It'll be alright  
Okay?  
Just might be better off this way...  
It's slow,  
And I, for one, am ready  
Just might be better off this way...  
We'll never know

It might take a while,  
But I can't wait  
The rotten air's stunk up the place  
For so long that I'm half gone already  
Just might be better off this way...  
We'll never know  
No, we'll never know

Alone to figure out our chances  
Testing out all out inventions  
Taking all the changes on  
Roads to different destinations  
Resting on our good intentions  
Never will get us on our way  
It's all up to us
