Open your eyes, such a surprise  
Calling numbers from a phonebook page  
We sit around, lie on the ground  
Promise that we'll never act our age  
It's true, like I'd wanted to

There's no snow (no snow)  
In southern California, baby I adore ya, talkin about  
now  
There's no snow (no snow)  
In this part of town, but when you're around, it's a  
holiday

I don't know why, every time, that I see your face I want  
to cry  
Might be the way, oh that you say  
You could stay here till the end of time  
With me, making history

There's no snow (no snow)  
In southern California, baby I adore ya, talkin about  
now  
There's no snow (no snow)  
In this part of town, but when you're around, it's a  
holiday

When I'm with you, life feels brand new  
When I'm with you, I feel so brand new

There's no snow (no snow)  
In southern California, baby I adore ya, talkin about  
now  
There's no snow (no snow)  
In this part of town, but when you're around, it's a  
holiday

Once you feel loved, once you feel love, it's a holiday  
Once you feel loved, once you feel love  
But when you're around, it's a holiday
