Let go don't you know she said you're never gonna get her

[Get her]

I smile for a while because I'm sure that I know better

[Better]

I think I'm falling in love

But baby you're not here

I heard your voice on the radio

I know every word and the way it goes

If you could only play your old sweet song for me

When I saw your face on the TV screen

If you only knew how much you mean to

A boy like me, a small town boy like me

Something now where do I begin I swear I know you

[Know you]

Every word sounds absurd but I know that I can show you

[Show you]

I think I'm falling in love but baby you're not here

I heard your voice on the radio

I know every word and the way it goes

If you could only play your old sweet song for me

When I saw your face on the TV screen

If you only knew how much you mean to

A boy like me, a small town boy like me

Those boys that you write all of your songs about

Did anyone ever write you back

Well here's mine

I hope you get it in time

I heard your voice on the radio

I know every word and the way it goes

If you could only play your old sweet song for me

Well we'll meet some day and I hope you'll see

That that boy you wanted, well it was me

Just a boy like me

A small town boy like me

[Boy like me]
