Dear Mr. and or Mrs. sender
We're pleased to inform you that your application's
been accepted
Starting from the time you get this letter
Your life will be one never-ending "hope you're feeling
better"

You get your choice of an aesthetic
Ah we need to chop your clock off tick tock, tick tock,
tick tock, tick tock
It might not be what you expected
There is no money back once you've been ripped off,
ripped off, ripped off

Today's a very special day
The boys'll murder for it but what will the neighbors
say?
It leaves you feeling pretty hollow it might be nice to
look at
Don't forget you're stuck with it tomorrow and
tomorrow and tomorrow

You're big enough to stop pretending
You'll start to really show it in a week or so
So don't go saying it's just come to your attention
You'll get more than you're asking for without the right
protection

Today's a very special day
And how you'd love to have a little thing with which to
play
But love wont get you very far, today be still your
beating heart
You'll have to keep on feeding it tomorrow and
tomorrow and tomorrow
Tomorrow and tomorrow and tomorrow

Boys will be boys, will be boys, will be boys, will be boys
Will be boys, will be girls with no warning
Girls will be girls, will be guys, will be boys that don't
cry over toys
That they use to beat girls they despise by the morning

They always said that sex would change you
Change you, change you, change you

No second thoughts the knife is nearing
You'll never hear the little pitter patter pitter patter
Of this little feat of engineering
Of course I love you and of course it's what's inside
that matters

But I think the whole charade is ending
It seems to me to be the only way to keep from getting
Caught up in a long life of regretting
The doctors say that once you get a taste for it should
keep on cutting

But while you happen to be here
Why don't you whisper all those sweet forevers in my
ear?
Stiff upper lip in all this sorrow, hurry up and stick it in
You never know when it will end tomorrow, tomorrow,
tomorrow
Tomorrow, tomorrow, tomorrow, tomorrow, tomorrow,
tomorrow
Tomorrow and tomorrow and tomorrow and tomorrow

They always said that sex would change you
Change you, change you, change you
