### **"The Sheep Song"**

Visit "[The Sheep Song](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Red brush, washing up  
Look I made America hush, hush  
Don?t, don?t rush  
And don?t try to care too much

Brown wine, turpentine  
Somethings mustn't be combined  
Sleep now, never fear  
All your animals are here

Counting sheep, I lay me down to sleep  
But I see a sheep that will not leave  
From the back they catch him in a trap  
Hit his head and send him off to bed

Cutting by numbers is kinder  
Invest in one with a silencer  
All of the studies say if they?re  
Calm when they die then they taste better

Cutting by numbers is kinder  
Invest in the one with the silencer  
All of the studies say if they?re calm  
When they die then they taste better

Goodbye olive sky  
I am crying all the time  
There, there, don?t despair  
We will find your sheep somewhere
