There goes my girl, there goes my first love  
With the guy I used to call my friend  
There goes love I thought would never end  
I can't forget her

My heart is breaking  
When I see her holding hands with him  
Can't help thinking how it might have been  
She's still my first love, yeah

My first love, she's still around  
She never left this part of town  
Now I see her 'most every day  
But she don't look my way

There goes my first love  
With the guy I used to call my friend  
There goes love I thought would never end  
I can't forget her

My heart is breaking  
When I see her holding hands with him  
Can't help thinking how it might have been  
She's still my first love, yeah

She loved me but not for long  
I wonder what I did wrong  
Now every day those pretty feet  
Come walking on down the street

There goes my first love  
With the guy I used to call my friend  
There goes love I thought would never ever end  
I can't forget her

My heart is breaking  
When I see her holding hands with him  
Can't help thinking how it might have been  
She's still my first love

There goes my first love  
With the guy I used to call my friend

There goes love I thought would never end  
I can't forget her

There goes my first love  
With the guy I used to call my friend  
There goes love I thought would never end  
I can't forget her

There goes my first love  
With the guy I used to call my friend  
There goes love I thought would never end  
I can't forget her

My heart is breaking
