My name should be trouble  
My name should be woe  
For trouble and heartache  
Is all that I know  
But Danny, yes, Danny is my name

My life has been empty  
My heart has been torn  
It must have been rainy, oh yeah,  
The night I was born  
Oh Danny, oh Danny is my name

I'm so afraid of tomorrow  
So tired of today  
They say that love is the answer  
But love never came my way

I'm writing a letter  
To someone I know  
So if you should find it  
And if you're alone  
Oh Danny, yes, Danny is my name

Oh Danny, yes, Danny is my name  
Oh-oh-oh-oh
