Don't be afraid, you and I were made the same little  
one

And I know what it's like when you feel left out of the  
game little one

But if you take this helping hand that I lift  
Then we can smile together, let's be friends

The world that you see may seem to be a mystery to  
you

The night may be dark but hope very hard and dreams  
can come true

You live in silence but for once let's pretend  
We're talking here together, let's be friends

You're not alone, I've always known that we'd get along  
And someone I know says life is good and He can't be  
wrong

There's fun and laughter just waiting round the bend  
Let's find them now together, let's be friends

Let's find them now together, let's be friends
