Is your love darling just a mirage?  
From the distance, you call to me like an oasis  
Though your kisses, keep drawing me near  
Is your love a mirage that will disappear?

Like a man in the desert, I'm lost  
Is this dream just a trick of my imagination  
Though I thirst for your lips, night and day  
Is your love a mirage that will fade away?

How I pray, heaven answered my prayer  
When I reach out for you, You'll be there  
In the search for my love will be through  
Like a dream a mirage, will come true  
How I pray, heaven answered my prayer  
When I reach out for you, You'll be there  
In the search for my love will be through  
Like a dream a mirage, will come true

A mirage, a mirage, a mirage
